

Neil Armstrong Math Intervention Services

Dear Families and Students,

During this challenging time, we wanted to remind you of activities your child can do while they are home. On the district page you will find resources for websites and activities from your child's teacher. Below are some additional ideas for you to do at home. Please continue to check the school website as we will be adding more information as necessary. If you have any questions or need to get in touch with us, please feel free to email us at any time.

Stay healthy,

Jennifer Padulo, Building Math Teacher
