

Math News!!!

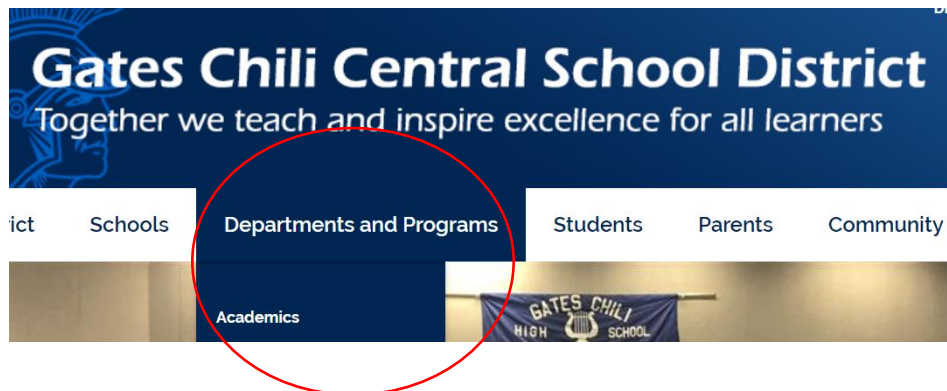

The Elementary Math Teachers have created a website to help parents and students at home. Below are the directions to get to our website which will help you see how we teach strategies for addition, subtraction, multiplication and division. There are also videos with students demonstrating the strategies.

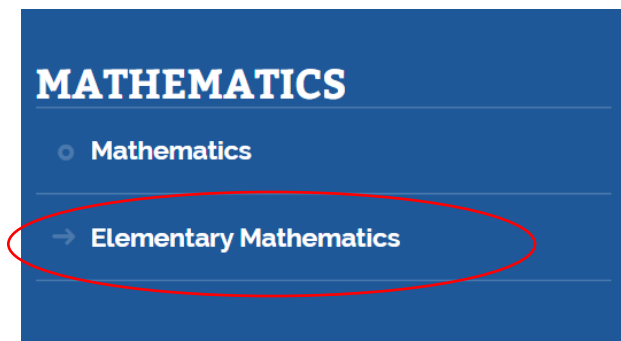

Next time your child says, "I don't remember how to add", you can use the website to help remind them!!!!

Step 1: Go to our district webpage www.gateschili.org

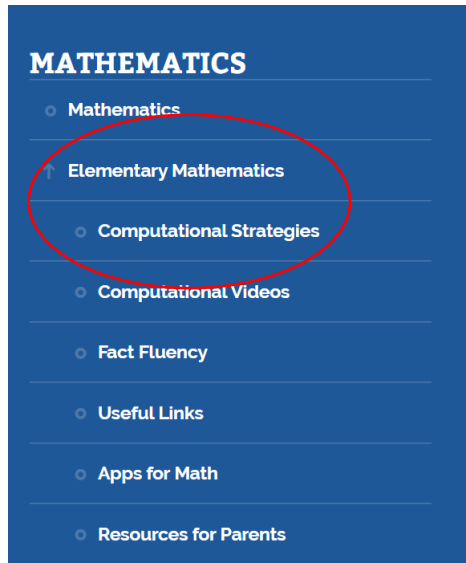

Step 2: Click on Departments and Programs and then Academics

Step 3: Click on Mathematics and then Elementary Mathematics

Step 4: On the left side, click on Computational Strategies

ELEMENTARY MATHEMATICS

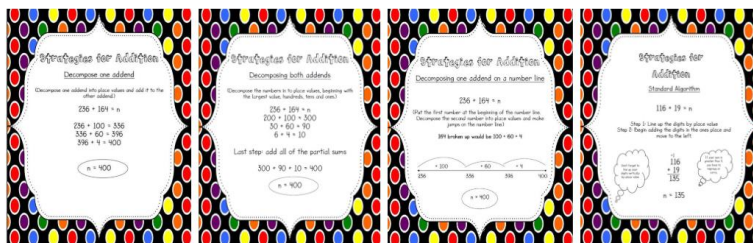

Welcome to the K-5 Math Website!

This site has been set up by all 4 elementary buildings to support parents and students with mathematics. You will find resources, websites and information about the Common Core Math Standards.

Step 4: You will see the four operations listed with several different strategies for each.

There are many different strategies used to solve addition, subtraction, multiplication and division problems. Here are some resources that may be helpful to students and parents at home.

Addition

Subtraction

Step 5: On the left side you will also see videos, apps and a list of websites that will help students understand and grow as a mathematician!

If you have any math concerns or questions, please contact your child's teacher or me. We will be happy to help!
