Spanish for the “Elementary Years

Help your student get a head start on Spanish by joining us for an educationally oriented curriculum that is specifically designed for the K-5 student to learn the Spanish language. This unique and exciting program features foundation vocabulary introduced through games, singing and fun activities. Students will be able to compound words and begin forming simple sentences.

Early introduction increases the student's ability to absorb rather than translate the language. If you have taken a Spanish Club class previously, new vocabulary is introduced with each session - never a repeat. This class is open to new and returning students! Join the fun! The program is offered at dismissal at each of the schools below. Participants must be picked up at 4:10 p.m.

Individual Piano, Guitar or Drum Lessons with Josh

Learn to play the piano, guitar, or drums through one-on-one 30-minute lessons with music teacher Josh Seiler. You decide your goals and leave the rest to the teacher. The most common goal might be to learn to read sheet music, but this is also an opportunity to learn jazz, chord theory, improvisation, composition, or other skills. All ages and skill levels are welcome. Josh is a self-taught and formally trained teacher. He has been playing for more than 30 years and has been teaching more than 15 years. Josh treats music as an art and strives to make lessons creative and enjoyable! You do not need to bring anything to the first day. If you are interested in working on a specific book, then you can bring that. Additional \$5-10 workbooks might be recommended based on skill level to those learning to read sheet music. Due to the tight schedule, we ask that you arrive early and make sure to leave on time so the next lesson can start.

What is psychic information and how does a reading "work"? Is it magic? A spiritual cult thing? Professional Psychic-Mediums and Teachers Susan Fiandach and Connie Wake offer this experiential class of information and connection. This offering is a "show and tell" of psychic-mediumship, describing the process of the sixth sense, followed by a demonstration of psychic-medium messages to those in attendance.

Depending on the size of the class, there is no guarantee that everyone will receive a message. The basis of their understanding of psychic-mediumship is simply as the extension of information from our senses in an "extra sensory" way. Whether you call it "that small voice," intuition or clairvoyance, we all have it and can allow it to be part of our everyday living. Knowledge is power... connection is joy!

Students must be 16 years of age, hold a valid NYS permit, be enrolled in high school, and be in good standing. We offer two date options for students. This program provides 16 sessions of lecture and 16 sessions of driving with an instructor. Practice driving with an adult will also need to occur prior and during the program. Registration is done by birthdate lottery and will be available in mid-April. The price will be \$500 for in-district attendees and \$575 for out-of-district participants. Payment plans are available. Some details may be subject to change.

Five-Hour Pre-licensing Course ONLINE

This course is taught via an online video session. Students must provide a photo of a valid NYS DMV drivers permit (back view is also necessary if the address has been changed from original) by emailing jon@streetskills.net

Students will receive a meeting code and password to attend the Zoom conference by 2 p.m. on the date of their scheduled course. Students are to interact with the instructor the entire course and be ready to answer direct questions or comments. Upon successful completion of the course the certificate will be mailed to the student and the student must sign the certificate upon receipt. Please note certificates will not be issued immediately following the course. Please check and be sure we have a correct email, address, and phone number for you before the start of the class. The MV-278 Certificate students receive is good for one year from the date it is issued and is used to schedule the road test. In addition to the basics, students will leave with knowledge of skills and habits for a lifetime of safe driving. The course will not simply provide the minimum information to pass a road test, but high-value techniques. Mr. DeVecchio, the instructor has taught auto driving skills for many years and has developed an informative and engaging pre-licensing experience.

Driver's Permit Testing

Is it time to get your Learner's Permit? The NYS Department of Motor Vehicles (DMV) now allows students to take the Driver's License knowledge test online (on their own) or at their high school. Participation in this program should drastically reduce the time spent at the DMV office. After passing the exam you will be given the paperwork needed to take to the DMV to apply for your permit. The fee for this exam is in addition to any fees required by DMV. Students can take this permit test any time following their 15th birthday. Before you take your permit test at Gates Chili, please be sure to visit the DMV website, gateschili.org/DMV, to read the learner's manual and take the practice test questions. These are the same questions you will see when you take your actual permit test. All students must be currently enrolled in good standing at Gates Chili High School. Please call our office at 247-5345 or come to Room 200 at the high school to schedule a time (we can do tests during study halls, lunch or after school) after you have registered online.
