Parent Portal: Register Online Soon!

We invite you to take advantage of our student progress reporting system known as Parent Portal. The Parent Portal allows you internet access to the results of in-class tests and assignments in all your child's classes. Through a password protected program, you are afforded the opportunity to view the grade book of each of your child's teachers providing you an up-to-date snap shot of your student's progress. You will receive an email from the district in June with directions.

Presentation questions and/or notes:
